

# MANISH YOGI

---

## .NET Developer

Jaipur, Rajasthan 302012 | +916375477454 | Manish1999yogi@gmail.com | [LinkedIn](#)

## CAREER SUMMARY:

---

Experienced ASP.NET Developer with around **4 years of expertise** in building scalable, secure, and high-performance web applications. Proficient with modern .NET frameworks, API integrations, and database management. A proactive team player with strong problem-solving and communication skills, committed to delivering innovative solutions that drive business success.

## WORK EXPERIENCE:

---

### Konstant Infosolutions Pvt. Ltd.

Software Developer | 26 May, 2025 - Present

- Leading backend development using ASP.NET Core MVC and Web API, delivering scalable and secure services.
- Integrating Zoho Analytics and building custom APIs for reporting and business insights.
- Working with Azure AI services to enhance application intelligence and automate data-driven workflows..

### Sumedha Softech Pvt. Ltd.

.Net Developer | 11 June, 2022 - 30 April, 2025

.Net Developer Intern | 10 March, 2022 - 10 June, 2022

- Engineered scalable web applications using **ASP.NET Core MVC**, **Web API**, and **Umbraco CMS**, reducing page load time by 35%.
- Optimized the **Boatflex** platform, achieving **90+ PageSpeed scores** globally and increasing user engagement by **25%**.
- Migrated legacy systems from **.NET Framework 4.7.2** to **.NET 8** and upgraded **Umbraco CMS** from v8 to v13, enhancing system performance by **40%**.
- Integrated third-party APIs including **Stripe** and **Booking Manager**, improving payment workflows by **20%** and reducing transaction errors by **30%**.
- Contributed to internal tools and CMS-based websites, strengthening overall code quality and project efficiency.

## PROJECTS:

---

### The Change Compass & Change Automator (Enterprise Change Management Platforms)

May, 2025 - Present

- Led backend development for two enterprise SaaS tools (Compass & Automator). Built and optimized APIs, survey modules, impact assessments, hierarchy management, and automation workflows. Implemented Google Sheets and Zoho Analytics integrations, AI features using Azure OpenAI, and advanced Excel import/export. Handled production fixes, performance improvements, and end-to-end backend architecture.

### Boatflex – Website (Front End and Back End)

June, 2022 - April, 2025

- Designed and implemented secure authentication using ASP.NET Identity and JWT tokens, ensuring robust user access control.
- Developed RESTful APIs for core functionalities including boat management, bookings, and Stripe payment integration.
- Optimized web application performance to achieve 90+ PageSpeed scores globally, enhancing user experience across devices.

## IPF.Admiss – Migration & Upgrade

Jan, 2025 - Feb, 2025

- Modernized codebase by upgrading to .NET 8 and Umbraco v13.
